Pain/Tenderness	___	___																		
Lumps	___	___																		
Change in breast size	___	___																		
Areas of skin changes thickening or dimpling	___	___																		
Excretions or changes of the nipple	___	___																		
2. Are any of the above symptoms cycle related?	___	___																		
3. Are you still having your periods? If yes: Date of last period _____	___	___																		
4. Have you had a surgical hysterectomy?	___	___																		
If yes, date _____ Complete ___ Partial ___																				
Reason for hysterectomy?																				
<input type="radio"/> Excess bleeding <input type="radio"/> Endometriosis <input type="radio"/> Fibroid cysts <input type="radio"/> Cancer <input type="radio"/> Other																				
5. Has anyone in your family ever been treated for breast cancer?	___	___																		
If yes, note age and survival <input type="radio"/> Mother <input type="radio"/> Grandmother <input type="radio"/> Sister <input type="radio"/> Daughter																				
Age diagnosed _____ Result of Treatment _____																				
6. Have you ever been diagnosed with breast cancer?	___	___																		
If yes, date: _Month _____ Year _____																				
Cancer type <input type="radio"/> Local <input type="radio"/> Metastatic <input type="radio"/> Lymph node involvement																				
Left breast <input type="radio"/> Inner <input type="radio"/> Outer <input type="radio"/> Nipple																				
Right breast <input type="radio"/> Inner <input type="radio"/> Outer <input type="radio"/> Nipple																				
Treatment <input type="radio"/> Surgery <input type="radio"/> Chemo <input type="radio"/> Radiation <input type="radio"/> None																				
If surgery; <input type="radio"/> Mastectomy <input type="radio"/> Lumpectomy																				
7. Have you ever been diagnosed with any other breast disease?	___	___																		
If yes: Cysts/fibrocystic ___ Fibro Adenoma ___																				
Mastitis/inflammatory breast disease ___																				
8. Have you had any cosmetic breast surgery or implants?	___	___																		
If yes, date _____ <input type="radio"/> Silicone <input type="radio"/> Saline																				
Experience: <input type="radio"/> Problems <input type="radio"/> No problems																				
9. Have you ever had any biopsies or any other surgeries to your breasts	___	___																		
If yes, date _____																				
Left breast <input type="radio"/> Inner <input type="radio"/> Outer <input type="radio"/> Nipple																				
Right breast <input type="radio"/> Inner <input type="radio"/> Outer <input type="radio"/> Nipple																				
Results <input type="radio"/> Negative <input type="radio"/> Positive <input type="radio"/> Calcifications																				

Mark on the following graph to indicate location of pain, surgery or lumps:

Clock and Quadrants of the Breast

- | | Yes | No |
|--|-----|-----|
| 10. Have you ever taken contraceptive pills for more than one year?
If yes, <input type="radio"/> Currently <input type="radio"/> Less than 5 years <input type="radio"/> More than 5 years | ___ | ___ |
| 11. Have you had pharmaceutical hormone replacement therapy (HRT)?
If yes, <input type="radio"/> Currently <input type="radio"/> Less than 5 years <input type="radio"/> More than 5 years | ___ | ___ |
| 12. Do you have an annual physical examination by a doctor? | ___ | ___ |
| 13. Do you perform a monthly breast self-exam? | ___ | ___ |
| 14. Have you ever smoked? | ___ | ___ |
| 15. Have you ever been diagnosed with diabetes? | ___ | ___ |
| 16. Total mammograms _____ | | |
| 17. Date of last mammogram _____ Were you re-called? | ___ | ___ |
| 18. Your age at your first mammogram? _____ | | |
| 19. Number of full term pregnancies? _____ | | |
| 20. Have you had breast ultrasound?
If yes...Date: ___/___/___ Left ___ Right ___ Results: Negative ___ Positive ___ | ___ | ___ |
| 21. Have you had breast MRI?
If yes...Date: ___/___/___ Left ___ Right ___ Results: Negative ___ Positive ___ | ___ | ___ |

Client Disclosure

Breast thermography is a non-contact, private and non-invasive procedure. The value of thermography as a study tool is its ability to measure skin temperature changes. **It offers men and women information that no other procedure can provide regarding breast health.**

Breast thermography is not a replacement for or alternative to mammography or any other form of breast imaging. Breast thermography, mammography or breast ultrasounds are complementary procedures; one **test does not replace the other.** Breast thermography is meant to be used in addition to other tests or procedures.

Thermography captures and records temperature variations on the skin, which provides vital information directly influenced by complex metabolic and vascular activity. This information **does not in any way suggest diagnosis and/or treatment.** Studies show that the patient benefits when multiple tests are used together. This multimodal approach includes breast self-examinations, physical breast exams by a doctor, mammography, ultrasound, MRI, thermography, and other tests that may be ordered by your doctor.

A reported “Elevated Level of Concern” finding does not indicate that it is suspicious for any specific disease. However, any suspicious finding will be accompanied with a strong and intentional recommendation for further clinical evaluation. If you detect a lump or any other change in your breast before your next thermogram study, consult your doctor immediately.

Notice to clients presenting with previously diagnosed cancer: Thermography interpretation in your report **does not include information or recommendations related to the measured changes of disease beyond skin temperature changes and patterns.** As there is no single known test capable of monitoring all biological influences of the complex disease generally diagnosed as cancer, **continued monitoring with available additional testing as recommended by your personal physician is strongly advised.** Your Thermographer may not be a licensed medical professional. **Your Thermographer cannot interpret your images or advise or prescribe to you based on your images.** Your thermographer can ask health history questions as well as educate you on general breast health.
